uTest Overview

About Us

uTest is the world's largest marketplace for software testing services. We provide real-world QA services through our community of 25,000+ professional software testers from more than 165 countries around the globe. More than a thousand companies - from web startups to global software leaders - have signed up for the uTest marketplace to get their web, mobile, gaming and desktop applications tested.

Why uTest?

[Software companies](#) of all sizes turn to uTest to get their web, mobile, gaming and desktop applications tested by our QA professionals across locations, languages, OS and browser. uTest enables you to:

- **Achieve Real-World Testing Coverage:** Build a virtual testing team from scratch, or have the uTest community act as an on-demand extension of your internal QA staff
- **Get to Market Faster:** Complete test cycles in as little as 48 hours; run releases over the weekend; view feedback and bug reports in real-time
- **Increase App Quality:** Test your product by app type, location, language, OS/browser, tester experience and other criteria through a secure online platform
- **Control Costs:** With our on-demand model, uTest provides complete QA coverage for less than 75% of the cost of hiring a full-time QA staff member
- **Pay-per-test cycle:** With uTest, companies define success on their own terms and pay for completed test cycles through our [on-demand pricing model](#)

"I needed a solution that would scale and, being a start-up, I really needed something that could keep the cost down. uTest made perfect sense." - Travis McElfresh, VP of Technology at [1Cast](#)

"I specified the exact type of testing I needed, approved the bugs myself and moved on to the next release. And I was in complete control the entire time." - Cosma Dinca, QA Manager, [IMinent](#)

"uTest is by far the easiest way to test software apps." - Peter Clegg, Director of Product, [Move Networks](#)
